## Aircraft Heater

### D200R

#### Features

- Manufacture: Nordic Heater
- Model: D200R
- Capacity: Burner Bentone 200 kW / 667,000 BTU.
- Engine: Deutz, 3 cyl /oil-cooling. 35,8 kW

Power package Deutz diesel, 3 cylinders with integrated oil-cooling. 35,8 kW.

Burner Bentone 200 kW / 667,000 BTU.

Patent pending high performance electric fan unit with two fan speeds. Max flow 9500 m<sup>3</sup>/h / 5592 CFM. Max pressure 8 kPa / 1,16 PSI.

Temperature + 10°C / + 50°F – + 115°C / 239°F . with presets + 30°C / 86°F and + 60°C / 140°F

The heater is equipped with a tow bar which activates the brakes on the rear wheels. The heater is equipped with engine, diesel, battery heating and battery charger as standard.

## D120 HYBRID

### Features

- Manufacture: Trowin Industries Inc.
- Model: MARK III
- Capacity: 3,000 & 6,000 DBP

Power package Deutz diesel, 2 cylinders with integrated oil-cooling. 23 kW.

D120 HYBRID: Burner Bentone 120 kW / 400,000 BTU.

D160 HYBRID: Burner Bentone 160 kW / 533,000 BTU.

Patent pending high performance electric fan unit with two fan speeds.

Max flow 6000 m<sup>3</sup>/h / 3531 CFM. Max pressure 3.5 kPa / 0,51 PSI.

Temperature D120 HYBRID: + 10°C / 50°F – + 115°C / 239°F. with presets + 30°C / 86°F and + 60°C / 140°F

The heater is equipped with a tow bar which activates the brakes on the front wheels. The fan can be powered either by the onboard generator or via an external CCE 16 Amp power source. The 16 Amp connector is mounted at the rear of the heater. The heater is equipped with engine, diesel, battery heating and battery charger as standard.

**D120 R**

### Features

- Manufacture: Nordic Heater
- Model: D120R
- Capacity: Burner Bentone 120kW / 400,000 BTU.
- Engine: Deutz, 3 cyl /oil-cooling. 35,8 kW

### Fan unit

Patent-pending high performance electric fan unit with two fan speeds. Max flow 6200 m<sup>3</sup>/h, Max pressure 3.5 kPa. TEMPERATURE RANGE +10°C – +115°C with presets 30°C and 60°C.

**E42**

### Features

- Manufacture: Nordic Heater
- Model: D120R
- Capacity: Burner Bentone 120kW / 400,000 BTU.
- Engine: Deutz, 3 cyl /oil-cooling. 35,8 kW

### Fan

Patent-pending high performance electric fan unit with two fan speeds. Max flow 4800 m<sup>3</sup>/h, Max pressure 3.2 kPa.

### TEMPERATURE RANGE

+10°C – +80°C with presets 30°C and 60°C.
